WORK EXPERIENCE

2022 - 2026
(Remote)

BUCKETSOFBANNERS.COM | FULL-STACK WEB DEVELOPER & SYSTEM ADMIN

Developed and maintained the Buckets of Banners website, ensuring a smooth user experience and efficient banner exchange process. Managed membership tiers (BoB and Club BoB) to enhance user engagement, while providing technical support and resolving user issues to maintain high satisfaction.

2022 - 2026
(Remote)

STATE-OF-THE-ART-MAILER.COM | FULL-STACK WEB DEVELOPER & SYSTEM ADMIN

Designed and developed responsive, user-friendly web interfaces using HTML, CSS, and JavaScript frameworks. Built and integrated server-side logic, databases, and APIs using PHP, while configuring and optimizing web servers and application environments for reliable performance.

WORK EXPERIENCE

2020 - 2022
(Onsite)

LOCAL GOVERNMENT UNIT - ISABEL LEYTE | MUNICIPAL INFORMATION OFFICER - (IT CONSULTANT)

Developed and promoted an information system to keep constituents informed about services, ensuring accessible public information. Managed official social media channels to drive engagement and handle inquiries, and implemented communication strategies during emergencies to deliver timely and reliable updates.

LOCAL GOVERNMENT UNIT - ISABEL LEYTE | IT SPECIALIST- (IT CONSULTANT)

Implemented the Keepsafe QR Code system for digital contact tracing, including a COVID-19 tracker and a system similar to the Balik Probinsya Program for the Rural Health Unit. Maintained internal systems and developed the official LGU-Isabel website, while providing ongoing technical support and remote assistance across departments.

2017 - 2018
(Onsite)

3AG BUSINESS SOLUTION INC - CEBU CITY | FULL-STACK SOFTWARE ENGINEER

Maintained and enhanced internal 3AGBS products, focusing on a Career Management and Education Platform. Developed systems including an ERP solution for SMEs with a Daily Time Record module, and designed the Brown and Proud App for the launch of MyPhone's Brown 1 4G smartphone.

2015 - 2016
(Onsite)

PASAR CORPORATION - ISABEL, LEYTE | FULL-STACK SOFTWARE DEVELOPER

Contributed to a development team building internal software solutions, primarily ERP systems supporting PASAR's daily operations. Developed and maintained multiple modules, built full-stack web applications using C#, ASP.NET MVC, and MySQL, and explored Android hybrid platforms for internal app development.

2014 - 2015
(Onsite)

WEBPLUS IT SOLUTION - ORMOC CITY | PROGRAMMER AND SOFTWARE DESIGNER

Developed web-based applications using PHP, MySQL, HTML, CSS, and JavaScript, focusing on functionality and user-friendly design. Collaborated with clients and team members to gather requirements, troubleshoot issues, and deliver effective software solutions.

2014

HELLO WORLD!

Started building foundational programming skills by creating simple "Hello World" programs, which marked the beginning of my journey in software development. From there, I gradually progressed into learning core web technologies such as HTML, CSS, JavaScript, and backend development, eventually growing into full-stack application development and real-world system building.

SELECTED CLIENT PROJECTS

Ongoing

SHELL INVENTORY APP (IN-HOUSE SYSTEM)

App Developer

Developed an in-house inventory management system for tracking products, stock levels, and inventory transactions.

2026

QWENTA POS (POINT OF SALE & INVENTORY MANAGEMENT SYSTEM)

Full Stack Developer

A cloud-based Point of Sale (POS) and inventory management system designed for retail stores, restaurants, cafés, pharmacies, and other small-to-medium businesses.

2026

ELITEBRIDGE SUPPORT SERVICES (CLEAN LANDING PAGE)

Website Developer and Hosting Admin

Developed and maintained elitebridgesupportservices.com and managed its hosting infrastructure for a company providing professional virtual assistant services to businesses and global teams.

2025

HRMS WLC ORMOC

Full Stack Developer

Built a web-based Human Resource Management System that centralizes employee records, attendance monitoring, and HR administration while reducing manual processes and errors.

2024

NIGERIAN GIRL (SHOPIFY LIQUID DEVELOPER (WEB & MOBILE))

Liquid Developer

Developed and customized a responsive online clothing store using Shopify Liquid for desktop and mobile users.

2023

MONEYMCS WEB APP

Lead Full Stack Developer

Developed a responsive web app for tax planning and financial services, providing clients with resources for tax, business, financial, and retirement planning.

2022

ELISTING ELEKSYON SYSTEM (YEAR 2022)

Full Stack Developer

Designed and developed a web-based Electronic Voters List system that streamlines voter registration records, search, and data management for election-related operations.

2022

ROVENLAN LOAN MANAGEMENT SYSTEM

Full Stack Developer

Developed a loan management system for managing borrower records, loan applications, payments, and account information.

2020

ANNOUNCEMENT MANAGEMENT SYSTEM (EVSU-ORMOC)

Full Stack Developer

Developed a web-based system for creating, managing, and publishing institutional announcements. Implemented user-friendly interfaces for administrators to manage announcements and ensure timely dissemination of information to students and staff.
